
Defined Benefit Pension Processing System

The ISSI Defined Benefit Pension Processing System addresses all facets of Defined Benefit Pension Plan Administration. The user-friendly interface, rich functionality and system flexibility allow quick access to critical data, enabling the Fund's Staff to provide superior levels of service to Participants and Retirees. Our team of highly-experienced defined benefit pension developers works directly with the Fund's Staff and professional advisors to customize the ISSI system to meet the Fund's unique plan rules and requirements.

Some features and functions of the Pension Administration System include:

- **Online Calculation of Pension Benefits, Including Retirement and Benefit Options**
- **Annual Pension Credit Statements for Participants**
- **Full Pension Application Processing**
- **Direct Deposit/Wire Transfer of Pension Benefits**
- **Printing of Pension Checks and Registers**
- **Processing of Death Benefit Checks for Eligible Survivors**
- **Tracking of Monthly, YTD and Lifetime Payment Totals**
- **Maintenance of Alternate Addresses for Pensioners**
- **Preparation of 1099R Tax Forms and Electronic Tax Filing**
- **Multi-Level Search Capability**
- **Full Reporting on Pensioners and Pension Data**
- **Full Actuarial Data Reporting**
