**The dynamic ISSI Ultra system
employs state-of-the-art technology
and enhanced features, including:**

- *Clean, crisp, clear and well-organized user screens*
- *Enhanced user personalization*
- *Case-sensitive data entry
(Eliminates need for ALL CAPS!)*
- *Dynamic and interactive data grids*
- *Improved bulk data entry for Remittance and Claims Modules*
- *Touch-screen capability and tablet compatibility*

■ Dynamic and Interactive Data Grids

- Unprecedented data manipulation within the ISSI System
- Sort, filter, and query on multiple data elements
- Suppress columns to simplify results or remove sensitive information prior to printing and exporting

ISSI Ultra's Dynamic Interactive Grids enable the most casual end user to search, refine, export, review and analyze data

The screenshot displays the ISSI Ultra software interface. At the top, a menu bar includes File, Edit, View, Reports, Letters, Links, Menus, Favorites, Admin, and Help. Below the menu, a title bar reads '15. Ultra Documentation Database - ISSI ULTRA 374'. The main window is titled 'Participant Maintenance: Dagostino Paul' and 'Participant Eligibility Status Inquiry'. A search box contains the following information:

Soc Sec Nbr: 000-03-4527
Paul Dagostino
221 Ryder Avenue
Manitoba Park, UT 08775

Below the search box, a table titled 'Active Eligibility' displays the following data:

Start Date	End Date	Status	Plan ID	Family Status	Employer	Employer Name
7/01/2011	3/31/2015	ELIGIBLE	A	Y	6013	A&G Construction
4/01/2011	6/30/2011	ELIGIBLE	A-HB	Y	6013	A&G Construction
1/01/2011	3/31/2011	ELIGIBLE	A	Y	6013	A&G Construction

At the bottom of the window, there are icons for Print, E-Mail, and Exit.

■ Keep Pace with Technology

ISSI Ultra's uncluttered design and large menu buttons ease navigation for touch screens and tablets.

**Unparalleled Ease-of-Use
with Desktops, Tablets, and
Touch Screens**

Simplified and Personalized User Screens

- Manipulate data displays on the field and tab level
- Increase department efficiency by displaying only the data needed in a format consistent with department tasks
- Case-sensitive data eliminates the need for ALL CAPS
- Change field names without custom programming
