
Member/Participant Processing System

The Member/Participant Processing System provides detailed tracking and online administration of activities by Participants, Dependents, Beneficiaries, Employers, Locals, and others. This easy-to-use system maintains the census and historical data necessary to professionally administer a Multi-Employer Benefit Fund, with extensive pre-designed reports and robust ad-hoc reporting capabilities that put valuable information at your fingertips.

Some features and functions of the Participant Processing System Include:

- **Participant Census Data Management**
- **Employer Data Maintenance and Information**
- **Dependent Data Maintenance and Information**
- **Beneficiary Data Maintenance and Information**
- **Local Data Maintenance and Information**
- **Multi-Level Contribution Rate Tables**
- **Employer and Contribution Rate Table History**
- **Participant Lifetime and Detailed Work History**
- **Rapid Data Entry and Inquiry Capability**
- **Multi-Level Search Capability**
- **Free-Form Comments Capability Throughout the System**
- **Correspondence Tracking and Call Logging**
- **Support for Multiple Unique Identification Numbers per Member**
